- Do you feel you have questions and get stuck on how to proceed?
- Have you made some plans but feel there is more to do in order to ensure your life affairs are completed when you are no longer here?

The *Leaving Gracefully End of Life Planning workshop* seeks to offer support and inspiration in your preparations and is a great arena to bring your questions and openly discuss with others who are also choosing to take steps in recording their wishes.

The 6 part program is based on the *Leaving Gracefully Package* - exploring the content as we work through the process of filling it in. Each session focuses on a relevant topic and there is space in between each meeting for you to implement and work with your plans.
